Esha Rehman

Junior Full-Stack Web Developer | Computer Science Graduate

Multan, Pakistan | esharehman707@gmail.com | +92 309 0503327

Professional Summary

Computer Science graduate (BSCS, 2026) with hands-on experience in full-stack web development (PHP, MySQL, JavaScript), WordPress, and Python. Built an Online Assessment Platform as a final year project and a Python desktop tool that cleans and deduplicates 2 million+ records during an IT internship at MEPCO. Also experienced in graphic design and technical documentation. Seeking a junior developer role where I can build user-centric solutions and keep growing.

Technical Skills

- **Web Development:** HTML, CSS, JavaScript, PHP, MySQL, WordPress, Responsive Design
- **Programming & Data:** Python, Pandas, Tkinter, PyInstaller, Retrieval-Augmented Generation (RAG), CSV / MS Excel data handling
- **Design & Tools:** Photoshop, Canva, Video Editing
- **Other:** MS Office, Technical Documentation
- **Soft Skills:** Team Collaboration, Communication, Quick Learner

Projects

Online Assessment Platform (Final Year Project) | PHP, MySQL, HTML, CSS, JavaScript

- Built a web-based platform for continuous learning assessment with automated feedback and performance analytics.
- Designed a role-based system: teachers create quizzes; students attempt quizzes and view results.
- Implemented an interactive dashboard that visualizes student progress, identifies weak areas, and tracks improvement over time.

Document Q&A Chatbot | Python, RAG

- Developed a chatbot that lets users ask natural-language questions about PDF documents and get answers using Retrieval-Augmented Generation (RAG).

MEPCO App Cleaner (Internship Project) | Python, Pandas, Tkinter, PyInstaller

- Developed a portable desktop application to clean and deduplicate large FBR tax data across multiple Excel sheets.
- Processed 2 million+ records (10+ sheets) using background threading so the interface never freezes.
- Added column-based dynamic filtering (e.g., Name, CNIC, NTN) to remove duplicates from selected fields, and export of cleaned CSV files.

- Packaged as a standalone .exe with PyInstaller so non-technical staff can run it from a USB drive with no installation.

Work Experience

IT Intern | MEPCO (Multan Electric Power Company), Multan | Jul 2026 – Aug 2026

- Built MEPCO App Cleaner, a Python tool that deduplicates and cleans large consumer/tax datasets (2 million+ records) for non-technical staff.
- Verified and updated consumer records in the billing database; created and maintained CSV files for accurate billing reports.
- Troubleshot hardware and network issues for internal systems, helping reduce downtime.
- Worked with senior engineers to resolve technical complaints from field staff.
- Maintained daily technical logs and prepared summary reports for management.

Web Development & Graphic Design Intern | ATALI Realty Builders & Properties | Aug 2025 – Sep 2025

- Customized WordPress websites to match client requirements.
- Worked with the development team to design and implement responsive user interfaces.
- Designed marketing materials and social media graphics in Photoshop and Canva to improve brand visibility.
- Wrote technical documentation and instructional content for newly launched features.

Education

Bachelor of Science in Computer Science (BSCS) | University of Southern Punjab (USP), Multan | 2023 – 2026

Associate Degree in Sciences (ADS) | Govt. Degree College Kacha Khuh | 2020 – 2022

Intermediate (Pre-Medical) | Govt. Degree College Kacha Khuh | 2018 – 2020

Certifications

- Internship Completion Certificate, MEPCO (Multan Electric Power Company)
- Internship Completion Certificate, ATALI Realty Builders & Properties
- Certificate in Office Management
- Certificate of Empowering Women Entrepreneurs
