WORK EXPERIENCE

IT Intern
Jul 2026 - Aug 2026

MEPCO (Multan Electric Power Company), Multan

- Built MEPCO App Cleaner, a Python tool that deduplicates and cleans large consumer/tax datasets (2 million+ records) for non-technical staff.
- Verified and updated consumer records in the billing database; created and maintained CSV files for accurate billing reports.
- Troubleshot hardware and network issues for internal systems, helping reduce downtime.
- Worked with senior engineers to resolve technical complaints from field staff.
- Maintained daily technical logs and prepared summary reports for management.

Web Development & Graphic Design Intern
Aug 2025 - Sep 2025

ATALI Realty Builders & Properties

- Customized WordPress websites to match client requirements.
- Worked with the development team to design and implement responsive user interfaces.
- Designed marketing materials and social media graphics in Canva to improve brand visibility.
- Wrote technical documentation and instructional content for newly launched features.

KEY PROJECTS

Online Assessment Platform (Final Year Project)

PHP, MySQL, HTML, CSS, JS

- Web-based platform for continuous learning assessment with automated feedback and performance analytics.
- Role-based system: teachers create quizzes; students attempt quizzes and view results.
- Interactive dashboard that visualizes student progress, identifies weak areas, and tracks improvement.

Rangrez: Full-Stack E-commerce Web App (Personal Project)

React, Vite, Tailwind, Node.js, Express, MongoDB, JWT

🔗 GitHub: github.com/esharehman707-eng/rangrez-ecommerce

- Responsive clothing store with product search, filter and sort, size selection, and a persistent shopping cart.
- Owner admin panel with secure JWT login and full product management (add, edit, delete).
- REST API on Node.js and Express with MongoDB Atlas, including server-side stock validation at checkout.

MEPCO App Cleaner (Internship Project)

Python, Pandas, Tkinter, PyInstaller

- Portable desktop app that cleans and deduplicates FBR tax data across 10+ Excel sheets (2 million+ records) using background threading, so the interface never freezes.
- Column-based dynamic filtering (Name, CNIC, NTN) and export to cleaned CSV files.
- Packaged as a standalone .exe so staff can run it from a USB drive with no installation.

Document Q&A Chatbot

Python, RAG

- Chatbot that answers natural-language questions about PDF documents using Retrieval-Augmented Generation (RAG).
